

## Race Report – Twilight Race 4

Twilight Race 4 Report Thursday 2nd June was a glorious, early summer's day. The forecast was for a SE breeze of 10-12 knots and that is exactly what we got! With a start time coinciding with Low Water Springs, our racing marks are somewhat limited in Southampton Water. For that reason the course was achieved with laid marks which kept the RIB crew busy. Unfortunately, the Queen's Jubilee clashed with our event which might account for the disappointingly low turnout. Two rounds of this 3 mile Average Laps course was achieved seeing NJOS first from Now or Never. More round the cans racing next week. My thanks to the Hound and RIB teams that made it happen.
